ORDINANCE NO. 13032-2016

AN ORDINANCE ADOPTING THE INTEGRATED ZONING REGULATIONS OF THE CITY OF CAGAYAN DE ORO AND PROVIDING FOR THE ADMINISTRATION, ENFORCEMENT AND AMENDMENT THEREOF AND FOR THE REPEAL OF ALL ORDINANCES IN CONFLICT THEREWITH

BE IT ORDAINED by the City Council (*Sangguniang Panlungsod*) of the City of Cagayan de Oro in session assembled that:

Whereas, the implementation of Comprehensive Land Use Plan would require the enactment of regulatory measures to translate its planning goals and objectives into reality; and a Zoning Ordinance is one such regulatory measure which is an important tool for the implementation of the comprehensive land use plan

Whereas, the Local Government Code authorizes Local Government Units to enact Zoning Ordinances subject to and in accordance with existing laws;

Whereas, the local governments are mandated to mainstream disaster risk reduction and climate change adaptation in development processes such as policy formulation, socio-economic development planning, budgeting and governance, particularly in the areas of environment, agriculture, water, energy, health, education, poverty reduction, land use and urban planning, and public infrastructure and housing;

Whereas, this Integrated Zoning Ordinance is one such regulatory measure which is an important tool for the implementation of the approved Comprehensive Land Use Plan;

Now Therefore, the City Council (*Sangguniang Panlungsod*) of the City of Cagayan de Oro in a session assembled hereby adopts the following Integrated Zoning Ordinance.

ARTICLE I
TITLE OF THE ORDINANCE

SECTION 1. Title of the Ordinance

This ordinance shall be known as the Integrated Zoning Ordinance of the City of Cagayan de Oro and shall be referred to as the Ordinance or IZO.

ARTICLE II
AUTHORITY AND PURPOSE

SECTION 2. Authority

This Ordinance is enacted pursuant to the provisions of the Local Government Code of 1991, R.A. 7160 Section 458 a.2 (7-9) dated 10 October 1991, "Authorizing the City, through the Sangguniang Panlungsod, to adopt a Zoning Ordinance subject to the provisions of existing laws" and in accordance with related laws such as but not limited to Commonwealth Act 141, RA 8850 Fisheries Code, PD 705 Forestry Code, PD 1067 Water Code, PD 1096 National Building Code, Executive Order No. 72, RA 9729 Climate Change Act of 2009 and RA 10121 Disaster Risk Reduction and Management Act of 2010.

SECTION 3. Purposes

This ordinance is enacted for the following purposes:

1. Guide, control and regulate future growth and development of Cagayan de Oro City in accordance with its Comprehensive Land Use Plan.
2. Protect the character and stability of residential, commercial, industrial, institutional, forestry, agricultural, open space and other functional areas within the locality and promote the orderly and beneficial development of the same.
3. Promote and protect the health, safety, peace and comfort, convenience and general welfare of the inhabitants in the locality.
4. Ensure the protection and sustainability of the environment taking into consideration climate change adaptation in synergy with disaster risk reduction and management,

principles of biodiversity, and preservation of historical and cultural heritage in all development processes.

5. Achieve the City-Wide Planning Objectives which are hereby defined in Annex A

SECTION 4. General Zoning Principle

These Zoning Regulations are based on the principles provided for in the approved Comprehensive Land Use Plan as per Sangguniang Panlungsod Resolution No. 11914 - 2015 dated 26 January 2015, as follows:

1. The Ordinance reflects the City's vision to be "A city managed through good governance, empowering its citizenry to thrive in a highly competitive economy and a sustainable environment nurturing its diversity and multi-cultural heritage towards a resilient, progressive, and inclusive future."
2. The local government unit recognizes that any land use is a use by right but provides however that the exercise of such right shall be subject to the review standards of this Ordinance;
3. The Ordinance gives the free market the maximum opportunity to spur the City's development within a framework of environmental integrity and social responsibility;
4. The Ordinance has been designed to encourage the evolution of high-quality developments rather than regulating against the worst type of projects;
5. The Ordinance has been crafted in a manner that is fully responsive to the ever-changing conditions that the City continually face;
6. The Ordinance functions as a tool for informed decision-making on the part of land use administrators by way of providing specific criteria to judge the acceptability of developments;
7. The Ordinance provides a direct venue for community empowerment where the stakeholders become involved especially in critical development decisions; and
8. The regulations in the Zoning Ordinance are considered as land use management tools that are necessary to provide a clear guidance to land development in order to ensure the community's common good.

ARTICLE III DEFINITION OF TERMS

The definition of the terms used in this Integrated Zoning Ordinance shall carry the same meaning given to them in already approved codes and regulations, such as but not limited to the National Building Code, Water Code, Philippine Environment Code, Climate Change Act of 2009, Disaster Risk Reduction and Management Act of 2010 and other Implementing Rules and Regulations, promulgated by the Housing and Land Use Regulatory Board. The words, terms and phrases used in this Ordinance shall be understood to have the meaning corresponding indicated and are hereby defined in Annex B, which is attached herewith and made an integral part of this Ordinance.

ARTICLE IV ZONE CLASSIFICATIONS

SECTION 5. Division into base zones, sub-zones and overlay zones

To effectively carry out the provisions of this Ordinance, the City is hereby divided into the following zones or districts as shown in the official Zoning Maps.

- o Base Zones
- o Sub-Zones
- o Overlay Zones

SECTION 6. Base Zones

The following are designated as Base Zones:

1. Low Density Residential Zone (R1)
2. Medium Residential Zone (R2)
3. High Density Residential Zone (R3)
4. Socialized Housing Zone (SHZ)
5. Rural Settlements Zone (RSZ)
6. Low Density Commercial Zone (C-1)
7. Medium Density Commercial Zone (C-2)
8. High Density Commercial Zone (C-3)
9. Light Industrial Zone (I-1)
10. Medium Industrial Zone (I-2)
11. General Institutional Zone (GIZ)
12. Special Institutional Zone (SIZ)
13. Parks and other Recreation Zone (PRZ)
14. Agricultural Zone (AGZ)
15. Agro-Industrial Zone (AIZ)
16. Forest Zone (FZ)
17. Water Zone

SECTION 7. Overlay Zones

In addition to the identified zones within the City, overlay zones shall be designated to protect the health and safety of residents by preventing the creation or establishment of incompatible land use. The following are designated as Overlay Zones:

- A. Flood overlay zone
- B. Landslide overlay zone
- C. Historical or heritage overlay zone
- D. Protection and conservation overlay zone
- E. No build zone

SECTION 8. Zoning Maps

It is hereby adopted as an integral part of this Ordinance, the official zoning maps for urban areas and for the whole city (general), wherein the designation, location and boundaries of the base zones, sub-zones and overlay zones herein established are shown and indicated and are hereby indicated in Annex C. Such official zoning maps are signed by the City Mayor, the Vice Mayor as Presiding Officer of the Sangguniang Panlungsod and duly authenticated by the HLURB.

SECTION 9. Zone Boundaries

The location and boundaries of the above mentioned various zones into which the city has been divided are hereby identified and specified on the official Zoning Map.

SECTION 10. Interpretation of Zone Boundary

In the interpretation of the boundaries for any of the zones indicated on the Official Zoning Maps, the following rule shall apply:

1. Where zone boundaries are so indicated that they approximately follow the center of streets or highways, the street or highway's right-of-way lines shall be construed to be the boundaries.

2. Where zone boundaries are so indicated that they approximately follow the lot lines, such lines shall be construed to be the boundaries.
3. Where zone boundaries are so indicated that they are approximately parallel to the center lines or right-of-way lines of streets or highways, such zone boundaries shall be construed as being parallel thereto and at such a distance there from as indicated in the zoning map. if no distance is given, such dimension shall be determined by the use of the scale shown in said zoning map.
4. Where the boundary of zone follows approximately railroad line, such boundary shall be deemed to be the railroad right-of-way.
5. Where the boundary of zone follows a stream, lake or other bodies of water, said boundary line shall be deemed to be at the limit of the political jurisdiction of the community unless otherwise indicated. boundaries indicated as following shorelines shall be construed to follow such shorelines and in the event of change in the shorelines, shall be construed as moving with the actual shorelines.
6. Where a lot of one's ownership, as of record at the effective date of this ordinance, is divided by a zone boundary line, the lot shall be construed to be within the zone where the major portion of the lot is located. in case the lot is bisected by the boundary line, it shall fall in the zone where the principal structure falls.
7. Where zone boundary is indicated one-lot-deep, said depth shall be construed to be the average lot depth of the lots involved within each particular city block. where, however, any lot has a depth greater than said average, the remaining portion has an area less than fifty percent (50%) of the total area of the entire lot. if the remaining portion has an area equivalent to fifty percent (50%) or more of the total area of the lot then the average lot depth shall apply to the lot which shall become a lot divided and covered by two or more different zoning districts, as the case may be.

In case of any remaining doubt as to the location of any property along zone boundary lines, such property shall be considered as falling within the less restrictive zone.

8. Where there is any change of parcel shape or missing parcel on the zoning map due to consolidation, error in technical description, missing data and other circumstances, such property shall be considered as falling within the less restrictive zone.
9. The textual description of the zone boundaries shall prevail over that of the official zoning maps.

ARTICLE V
ZONE REGULATIONS

SECTION 11. General Provision

Zone regulations refer to Use, Density and Bulk and Building/ Structure Design Regulations as described below:

Allowable Uses

The uses enumerated in the succeeding sections are neither exhaustive nor all-inclusive. The City Zoning Board of Appeals (CZBA) shall, subject to the requirements of this Article, allow other uses not enumerated hereunder provided that they are compatible with the uses expressly allowed.

Allowance of further uses shall be based on the intrinsic qualities of the land and the socio-economic and ecological/biophysical potential of the locality with due regard to the maintenance of the essential qualities of the zone.

Specific uses/activities for lesser density within a particular zone (R-1) may be allowed within the zone of higher density (R-2, R-3) but not vice versa, nor in another zone and its subdivisions (e.g. GC, C1, C2), except for uses expressly allowed in said zones, such that the cumulative effect of zoning shall be intra-zonal and not inter-zonal.

Each zone lists land uses that are, may, and are not considered appropriate, i.e. lists of permitted, special permit and prohibited uses, as follows:

Column 1	Column 2	Column 3
Allowable Uses, i.e. will be approved with or without conditions	Uses that may or may not receive approval or require Special Permit approval	Prohibited Uses, i.e. will not be approved and cannot be appealed
List of the uses that are considered to be <u>appropriate</u> in the zone.	Everything else not listed as 'allowable' or 'prohibited'.	List of the uses that are considered to be <u>inappropriate</u> in the zone.

The aim of the Ordinance is to give certainty to developers. Too much flexibility creates uncertainty and is therefore not going to encourage economic activity, or a reasonable standard of development.

SECTION 12. Regulations in Base Zones

Section 12.1. Regulations in Residential Zone

A RZ shall be used principally for dwelling / housing purposes so as to maintain peace and quiet of the area within the zone. The following are the allowable and prohibited uses:

SECTION 14. Zoning Incentives

Density bonuses, such as through allowable building height increases, may be provided as incentives for projects that use CCA/ DRRM technology or innovations, i.e. use of solar panels, rainwater harvesting, smart urban drainage systems, green architecture/ building systems.

Similar incentives may also be given to projects that provide wider setbacks, increased ground level open spaces, provides public infrastructure or conserve heritage sites.

ARTICLE VI GENERAL REGULATIONS

SECTION 15. Height Regulations

Notwithstanding the Building Height provisions of this ordinance, building heights should also conform to the height restrictions and requirements of the Civil Aviation Authority of the Philippines (CAAP).

Exempted from the imposition of height regulations in residential zones are the following: towers, church, steeples, water tanks and other utilities and such other structures not covered by the height regulations of the National Building Code and/or the CAAP.

SECTION 16. Area Regulations

Area regulations in all zones shall conform to the applicable minimum requirements of existing laws, codes and regulations such as:

1. PD 957, "subdivision and condominium buyers' protective law" and its revised implementing rules and regulations.
2. Batas Pambansa 220, "promulgation of different levels of standards and technical requirements for economic and socialized housing projects" and its revised Implementing Rules and Regulations.

23. RA 10121 or Disaster Risk Reduction and Management Act – disaster-prone and geo-hazard areas.
24. Other relevant guidelines promulgated by the national agencies concerned.

SECTION 17. Development Density

Permitted density shall be based on the zones capacity to support development.

A. Residential zones

1. High-density residential development allowed density is more than sixty five (65) dwelling units per hectare.
2. Medium density residential development allowed density is twenty one to sixty five (21 to 65) dwelling units per hectares;
3. Low density residential development allowed density is twenty (20) dwelling units and below per hectare;

B. All other zones

There is no fixed maximum density but should be based on the planned absolute level of density that is intended for each concerned zone based on the comprehensive land use plan.

SECTION 18. Building Density Regulations

The allowable building densities in the zones and subzones defined in this Ordinance are enumerated below. Building density shall be controlled by the maximum Floor Area Ratio (FAR) and maximum lot coverage.

FAR is defined as the ratio between the Gross Floor Area (GFA) of a building and the area of the lot on which it is built. The total GFA of any building or buildings in a lot should not exceed the prescribed maximum FAR multiplied by the lot area. Unless otherwise prescribed in this Ordinance, prescribed maximum FARs shall apply only to developable lots and not to roads and other lots or parcels of land not intended for vertical development.

SECTION 19. Easement

Pursuant to the provisions of the Water Code: 1) the banks of rivers and streams and the shores of the seas and lakes throughout their entire length within a zone of three (3) meters in urban areas, twenty (20) meters in agricultural areas and forty (40) meters in forest areas, along their margins, are subject to easements of public use in the interest of recreation, navigation, floatage, fishing and salvage.

No person shall be allowed to stay in this zone longer than what is necessary for space or recreation, navigation, floatage, fishing or salvage or to build structures of any kind.

SECTION 20. Buffer Regulations

A buffer of 3 meters shall be provided along entire boundary length between two or more conflicting zones allocating 1.5 meters from each side of the district boundary. Such buffer strip should be open and not encroached upon by any building or structure and should be a part of the yard or open space.

SECTION 21. Specific Provisions in the National Building Code

Specific provisions stipulated in the National Building Code (P.D. 1096), as amended thereto, relevant to traffic generators, advertising and business signs, erection of more than one principal structure, dwelling on rear lots, access yard requirements and dwelling groups, which are not in conflict with the provisions of the Zoning Ordinance, shall be observed.

SECTION 22. Advertising, Billboards and Business Signs

No advertising, billboards or business signs whether on or off premises of an establishment shall be displayed or put up for public view without clearance from the Zoning Administrator. Clearance for such signs or billboards may be granted only when the same is appropriate for the permitted use for a zone and the size thereof is not excessive, taking into account the bulk or size of the building or structure and the business practices or usages of the locality and the same shall in no case obstruct the view of any scenic spot.

Obnoxious signs that would constitute nuisance to adjoining property owners, distract motorists or constitute as hazards to public safety shall not be allowed in any area. No sign should project to public property unless expressly allowed by the Zoning Administrator. Temporary signs and billboards for not more than two months may be allowed by the Zoning Officer/ Administrator upon payment of corresponding fees to the City.

The permit for such sign shall indicate the location, size, slope, contents and type of construction.

It shall be unlawful to maintain an obsolete sign by reason of discontinuance of business, service or activity for more than 60 days there from.

ARTICLE VII PERFORMANCE STANDARDS

SECTION 23. Application of Performance Standards

The following performance standards are intended to ensure land use and neighborhood compatibility. All developments shall exhibit compliance to these standards which shall form part of the requirements for Locational Clearance. These standards are by no means exhaustive or all inclusive. The City Zoning Board of Appeals (CZBA) may require other standards, when deemed necessary, to ensure land use and neighborhood compatibility.

SECTION 24. Environmental Conservation and Protection Standards

It is the intent of the ZO to protect the natural resources of the City. In order to achieve this objective, all developments shall comply with the following regulations:

1. Views shall be preserved for public enjoyment especially in sites with high scenic quality by closely considering building orientation, height, bulk, fencing and landscaping.
2. Heavy water using industrial (e.g. soft drink bottling), recreational (golf courses, water theme parks and the like) and other facilities that will cause excessive and non-sustainable draw-out of groundwater shall not be allowed to locate within the City unless the proponent proves that their water requirement will not be detrimental to the residents;
3. Land use activities shall not cause the alteration of natural drainage patterns or change the velocities, volumes, and physical, chemical, and biological characteristics of stormwater. Streams, watercourses, wetlands, lakes or ponds shall not be altered, regraded, developed, piped, diverted or built upon;
4. All developments shall limit the rate of stormwater runoff so that the rate of runoff generated is no more than that of the site in its natural condition;
5. All developments shall undertake the protection of rivers, streams, lakes and ponds from sedimentation and erosion damage;
6. The internal drainage systems of developments shall be so designed as not to increase turbidity, sediment yield, or cause the discharge of any harmful substances that will degrade the quality of water. Water quality shall be maintained according to DENR DAO No. 34 – Revised Water Usage and Classification/Ambient Water Quality Criteria;
7. Municipal and industrial wastewater effluents shall not discharge into surface and groundwater unless it is scientifically proven that such discharges will not cause the deterioration of the water quality.

- Effluents shall be maintained according to DENR DAO No. 35 – 91 – Establishing Effluent Quality Standards for Class “C” Inland Waters;
8. Developments that generate toxic and hazardous waste shall provide appropriate handling and treatment facilities which should be in accordance with the requirements of and approved by the DENR;
 9. Floodplains shall not be altered, filled and/or built upon without proper drainage design and without proper consideration of possible inundation effects on nearby properties;
 10. All developments, particularly those in sloping areas, shall undertake adequate and appropriate slope and erosion protection as well as soil conservation measures;
 11. Facilities and operations that cause the emission of dust, dirt, fly ash, smoke or any other air polluting material that may have harmful effects on health or cause the impairment of visibility are not permitted. Air quality at the point of emission shall be maintained at specified levels according to DENR DAO No. 14 - Revised Air Quality Standards of 1992.
 12. Industrial processes/ activities should not cause negative impacts to the environment. The Zoning Administrator may request for descriptions of these as part of the requirements for Locational Clearance.

SECTION 25. Agricultural Land Conservation and Preservation Criteria

Agricultural lands are recognized as valuable resources that provide employment, amenity and bio-diversity. All agricultural lands in the City shall not be prematurely re-classified. Requests for re-classification shall be evaluated on the merits of conditions prevailing at the time of application, subject to the provisions of the Memorandum Circular No. 54 Prescribing the Guidelines Governing Section 20 of RA 7160...Authorizing Cities and Municipalities to Reclassify Agricultural Lands into Non-Agricultural Uses.

SECTION 26. Network of Green and Open Spaces

All residential, commercial, industrial and mixed-use subdivisions, having total contiguous land areas of five hectares or less are respectively required to provide tree-planted strips along its internal roads having a spacing of not more than 10 meters per tree.

Similar developments with total contiguous land areas greater than five hectares are required to provide, in addition to the above, landscaped tree parks with areas not less than ten percent of the total land area of the property, for the use of the occupants and/or the general public. These tree parks may be made part of the open space requirements mandated by PD 957, BP220 and related laws.

These open spaces, along with parks, playgrounds, roads, alleys and sidewalks shall be classified as non-alienable public lands, and non-buildable. Upon completion of the project, these open spaces shall be donated by the owner or developer to the city government or to a duly organized Homeowner's Association with the prior written consent of the city government. These shall hereinafter be zoned as Parks and Recreation Zones. No portion of these donated open spaces may thereafter be converted to any other purpose or purposes.

Roof decks of all buildings shall be landscaped, as applicable.

SECTION 27. Site Development Standards

The City considers it in the public interest that all projects are designed and developed in a safe, efficient and aesthetically pleasing manner. Site development shall consider the environmental character and limitations of the site and its adjacent properties. All project elements shall be in complete harmony according to good design principles and the subsequent development must be visually pleasing as well as efficiently functioning especially in relation to the adjacent properties and bordering streets.

The quality of every neighborhood shall always be enhanced. The design, construction, operation and maintenance of every facility shall be in harmony with the existing and intended character of its neighborhood. It shall not change the essential character of the said area but will be a substantial improvement to the value of the properties in the neighborhood in particular and the community in general.

Further, designs should consider the following:

1. Sites, buildings and facilities shall be designed and developed with regard to safety, efficiency and high standards of design. The natural environmental character of the site and its adjacent properties shall be considered in the development of each building and facility.
2. The height and bulk of buildings and structures shall be so designed that it does not impair the entry of light and ventilation, cause the loss of privacy and/or create nuisances, hazards or inconveniences to adjacent developments.
3. Abutments to adjacent properties shall not be allowed without the neighbor's prior written consent which shall be required by the Zoning Administrator prior to the granting of a Locational Clearance;
4. The capacity of parking areas/lots shall be per the minimum requirements of the National Building Code. These shall be located, developed and landscaped in order to enhance the aesthetic quality of the facility. In no case shall parking areas/lots encroach into street rights-of-way.
5. Developments which attract a significant volume of different modes of transportation, such as tricycles, PUJs, buses, etc., shall provide on-site parking for the same. These should also provide vehicular loading and unloading bays so as through street traffic flow will not be impeded.
6. Buffers, silencers, mufflers, enclosures and other noise-absorbing materials shall be provided to all noise and vibration-producing machinery. Noise levels shall be maintained according to levels specified in DENR DAO No. 30 - Abatement of Noise and Other Forms of Nuisance as Defined by Law.
7. Glare and heat from any operation or activity shall not be radiated, seen or felt from any point beyond the limits of the property.
8. Fencing along roads shall be see-through.

SECTION 28. Infrastructure Capacities

All developments shall not cause excessive requirements at public cost for public facilities and services and will not be detrimental to the economic welfare of the community. All developments shall exhibit that their requirements for public infrastructure (such as roads, water supply and the like) are within the capacities of the system/s serving them.

The Zoning Administrator shall require the following:

1. Drainage Impact Assessment Study

All development proposals in flood prone areas and all major proposals likely to affect the existing drainage regime, including commercial-residential buildings, shopping centers, office areas and business parks, residential areas, schools, universities, and industrial estates, shall be required to submit Drainage Impact Assessment Studies. These should be prepared, signed and sealed by duly licensed Civil Engineers, Sanitary Engineers or Environmental Planners.

2. Traffic Impact Statement

Major, high intensity facilities such as commercial-residential buildings having four floors and above, shopping centers, public markets, transportation terminals/ garages, schools, universities, industrial

estates, cock fighting stadia, sports stadia and other similar developments shall be required to submit Traffic Impact Statements. Other traffic generating developments, as determined by the Zoning Administrator, shall be required to submit the same.

ARTICLE VIII MITIGATING DEVICES

SECTION 29. Deviation

Variances and/ or Exceptions from the provisions of this Ordinance may be allowed by the City Zoning Board of Appeals (CZBA) only when the following terms and conditions exist:

1. Variance (deviation from applicable Bulk and Density Regulations, Building Design Regulations and Performance Standards)

Variance may be allowed provided that proposals satisfy all of the following provisions:

- a. Conforming to the provisions of the Ordinance will cause undue hardship on the part of the owner of the property due to physical conditions of the property (topography, shape, etc.), which is not self-created.
- b. The proposed variance is the minimum deviation necessary to permit reasonable use of the property.
- c. The variance will not alter the intended physical character of the zone and adversely affect the use of the other properties in the same zone such as blocking-off natural light, causing loss of natural ventilation or encroaching in public easements and the like.
- d. That the variance will not weaken the general purpose of the Ordinance and will not adversely affect the public health, safety or welfare.
- e. The variance will be in harmony with the spirit of this Ordinance.

2. Exceptions (deviations from allowed use provisions)

Exceptions may be allowed provided that proposals satisfy all of the following conditions:

- a. The exception will not adversely affect the public health, safety and welfare and is in keeping with the general pattern of development in the community.
- b. The proposed project shall support economic based activities/ provide livelihood, vital community services and facilities while at the same time posing no adverse effect on the zone/community.
- c. The exception will not adversely affect the appropriate use of adjoining properties in the same zone such as generating excessive vehicular traffic, causing overcrowding of people or generating excessive noise and the like.
- d. The exception will not alter the essential character and general purpose of the zone where the exception sought is located.

SECTION 30. Procedures for Evaluating Variances and/ or Exceptions

The procedure for evaluating applications for Variances and/ or Exceptions is as follows:

- a. The project proponent shall file a written application for Variance and/ or Exception with the CZBA citing the section(s) of this Ordinance under which the same is sought and stating the ground/s thereof.

- b. Upon filing of application, a visible project sign, (indicating the name and nature of the proposed project) shall be posted at the project site. This sign shall be maintained until the CZBA has rendered a decision on the application.
- c. The CZBA shall conduct preliminary studies on the application. These application papers shall be made accessible to the public.
- d. A written affidavit of no objection to the project by the owners of the properties immediately in front of and abutting the project site shall be filed by the applicant with the CZBA within fifteen (15) days upon filing of application.
- e. The CZBA shall hold public hearing(s).
- f. At the hearing, any party may appear in person, or be represented by agent/s. All interested parties shall be accorded the opportunity to be heard and present evidences and testimonies.
- g. The CZBA shall render a decision within thirty (30) days from the filing of the application, exclusive of the time spent for the preparation of written affidavit of non-objection and the public hearing(s).

All expenses to be incurred in evaluating proposals for Variances and/ or Exceptions shall be shouldered by the owner/ developer.

ARTICLE IX
ADMINISTRATION AND ENFORCEMENT

SECTION 31. Approved Zoning Maps

The Approved City Zoning Maps, with sizes of 2.40m x 2.40m, shall be posted at conspicuous locations at the City Hall.

Zoning Maps for each barangay shall be posted at barangay halls for public information and guidance of barangay officials. These shall be printed in standard color codes and of sizes similar to the City Zoning Maps.

SECTION 32. Locational Clearance

All owners/ developers shall secure Locational Clearance from the Zoning Administrator or, in cases of Variances and/ or Exceptions, from the CZBA prior to conducting any activity or construction on their property/land. This will include property/ land located in Forest Lands, Special Economic Zones and other areas administered by national and special agencies, except for facilities for national security as certified by the Department of National Defense.

SECTION 33. Projects of National Significance

Projects may be declared by the NEDA Board as Projects of National Significance pursuant to Section 3 of Executive Order No. 72. When a project is declared by the NEDA Board as a Project of National Significance, the Locational Clearance shall be issued by HLURB pursuant to EO 72.

SECTION 34. Major and/ or Innovative Projects

The Zoning Administrator or the CZBA, as the case may be, may seek the assistance of the HLURB or external consultants in the evaluation of proposed Major and/ or Innovative Projects such as seaports, airports, oil depots, reclamation areas, shopping malls, environmentally-critical projects, special economic zones, tourism enterprise zones, new towns and the like.

SECTION 35. Subdivision Projects

All owners and/ or developers of subdivision projects shall, in addition to securing a Locational Clearance, be required to secure a Development Permit pursuant to the provisions of PD 957 and its Implementing Rules and Regulations or BP 220 and its Implementing Rules and Regulations and in accordance with the procedures laid down in EO 71, Series of 1993.

SECTION 36. Temporary Approval

An activity or an establishment not listed as Allowable Use in the Zone Regulations within any zone hereof may, on application by the interested party with the Zoning Administrator shall be allowed on a temporary basis under the following conditions:

- a. The Zone or area in which the property subject of the application is located, or the area within the immediate vicinity, or a radius of five (5) kilometers from such property, is not yet built up or being developed according to the original trend, projection or pattern envisioned in the Ordinance, or no noticeable and desirable dominant trend has been observed in the area for a period of at least two (2) years where a non-built up area is one where the dominant use is less than 40% of the area;
- b. The temporary use permit shall be valid for a maximum of one year subject to the terms and conditions stipulated in the permit;
- c. The proposed project shall not in any way pose danger or hazard to the health and safety of its environment and surrounding neighborhood;
- d. The proposed activity shall be subject to the requirements of favorable initial and ongoing environmental examination and environmental impact assessment;
- e. The proponent shall submit a quarterly report of the progress of its operations; and,
- f. The proponent shall relocate the project facilities and equipment to another site at his own cost, in the event the CPDO find that the project's continued existence and operation are undesirable.

SECTION 37. Community Consultation

An application for any proposal listed as 'Uses that may or may not receive approval or require Special Permit approval' or 'Prohibited' within any Zone hereof shall be applied for and involve the community as follows:

- a. A satisfactory proof of posting of a conspicuous notice on the project site attesting, in essence, to the fact that an application has been filed with the CPDO specifying the date of such an application, the nature and expected level of operation of the establishment, the name of the project owner/proponent and his/its exact address and telephone and other important information.
- b. If the project is at least citywide in expected impact, the CPDO, through the Zoning Administrator/Officer, may also require the publication of such a notice in a newspaper of general circulation within the City at least once a week for two consecutive weeks.
- c. In case of objection lodged within two weeks of the latest notice, the City Zoning Board of Appeals shall determine the matter as outline within this Ordinance.

SECTION 38. Environmental Compliance Certificate

No Locational Clearance shall be issued to proposals covered by the EIS System unless the requirements of ECC have been complied with.

PAGE 40 OF 45, ORDINANCE NO. 13032-2016,

SECTION 39. Barangay Clearance

Project proponents are required to secure a Barangay Clearance for the proposed development, signed by the Punong Barangay, which is a requirement for applications for Locational Clearance.

SECTION 40. Building Permit

No Building Permit shall be issued by the City Building Official without a valid Locational Clearance in accordance with the Integrated ZO.

SECTION 41. Business Permit

The Business and Licensing Division shall not issue a Business Permit unless a valid Locational Clearance has been issued.

SECTION 42. Occupancy Permit

No Occupancy Permit shall be issued by the Local Building Official without certification from the Zoning Administrator that the building has complied with the conditions stated in the Locational Clearance.

SECTION 43. Validity of Locational Clearance

The Locational Clearance shall be valid for one year from the date of issuance. Should there be any change in the activity or expansion of the area subject of the Locational Clearance, the owner/ developer shall apply for a new Locational Clearance.

SECTION 44. Notice of Non-Conformance

Upon approval of this Ordinance, the Zoning Administrator shall immediately issue Notices of Non-Conformance to existing non-conforming uses, buildings or structures. The said Notice of Non-Conformance shall cite provisions of this Ordinance to which the existing use, building or structure does not conform to. The same Notice shall also inform the owner of said non-conforming use, building or structure of the conditions for the continued use of the same as provided in the following section.

SECTION 45. Existing Non-Conforming Uses, Buildings and Structures

The lawful uses of any building, structure or land at the time of adoption or amendment of this Ordinance may be continued, although such uses do not conform to the provisions of the Integrated ZO, provided:

1. That no such non-conforming use shall be enlarged or extended to occupy a greater area of land than that already occupied by such use at the time of the adoption of this Ordinance or moved in whole or in part, to any other portion of the lot or parcel of land where such non-conforming use exists at the time of the adoption of this Ordinance.
2. That no such non-conforming use which has ceased operation for more than one (1) year be again revived as non-conforming use.
3. A vacant/idle building or structure may not be used for non-conforming activity;
4. That any non-conforming building/ structure under one ownership which has been damaged maybe reconstructed and used as before provided that such reconstruction is not more than fifty percent (50%) of the replacement cost. That should such non-conforming portion of any building/ structure be destroyed by any means to an extent of more than fifty percent (50%) of its replacement cost at the time of destruction, it shall not be reconstructed except in conformity with the provisions of this Ordinance.
5. That no such non-conforming use maybe moved to displace any conforming use;
